

Nature and Science Learning Center
 Experiencing Nature - Doing Science - Having Fun
 a Greater Greenville Community Foundation Charitable Fund
www.atimeforscience.org

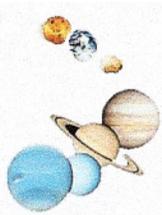

Saturday May 7
Beginning at 2:00 pm and
lasting into the evening

To celebrate International Astronomy Day 2011
 And to honor our colleague and friend

Carolina Skies
Astronomy Club and

Invite you and your family
 to the Bray Hollow Nature Conservancy for the
First Annual Billy Richard All Memorial
Space & Astronomy Day

Solar System to Scale

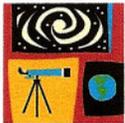

Using your own "Pace" Ship, families can start at the 8-in diameter Sun and walk the 6/10 of a mile distance to Pluto, along way in exact proportional the model Sun.

visualizing the planets distance and size to

STRAW

ROCKETS

Make your own then experiment with engineering changes to make it fly farther and straighter.
Fun for all ages!

Citizen Scientists

Calling on all citizens! Learn how you can become a Citizen Scientist to assist astronomy researchers around the world through.

Globe At Night
Moon Zoo

Galaxy Zoo
Milky Way Project

Visit with the guys from Astrohack who launch their balloons to the edge of space and see the many images they have made of Eastern NC taken from there.

TELESCOPE MAKING

Learn how you can join in a workshop to build your own Newtonian Reflector telescope.

Sundials

Join in making working miniatures of the *Equatorial Sundial* recently installed and on display at ATFS

"SPUDNICK"

See a demonstration of a "Backyard Ballistic" Potato Gun

ALL DAY STAR PARTY

Join with our guests from the Tar River Astronomy Club in Rocky Mount. Watch our own star during the day (through appropriately dark-filtered telescopes) then view the stars and planets at night at one of the few dark-sky observation sites in the County.

Munch the Sun

Let the little ones learn about the sun by decorating solar cookie models -- then eating them for dessert.

To be part of the 21st century we must make **A TIME FOR SCIENCE** now.
